Hazardous Weather

Hazardous Weather

Late afternoon and evening thunderstorms will be possible across western parts of the Panhandles today. Some storms may become strong to marginally severe, producing hail near one inch in diameter and gusts near 60 MPH.

A Heat Advisory is in effect for the southern portions of the Coastal Bend through 8 PM this evening. Heat indices of 110 degrees and higher can be expected. Heat indices between 110 and 115 can be expected through the weekend. Reduce, eliminate, or reschedule strenuous activities to the coolest times of the day. If you must be outside, reduce your activities, and take frequent breaks preferably in an air conditioned area. Wear lightweight, light-colored clothing. Drink plenty of non-alcoholic liquids, preferably water, even if you do not feel thirsty.

Hazardous Weather

Heat Advisories and Excessive Heat Warnings are in effect Friday, with similar "feels like" temperatures expected again on Saturday. Heat advisories are issued for "feels like" temperatures between 111 and 115; the more dangerous Heat *Warning* is for values greater than 115. In simple terms, a warning means that rapid onset of heat stroke, which can be deadly, is likely for persons not hydrated properly and outdoors for a prolonged period of time. Schedule activities accordingly...and as always, stay safe and stay cool.

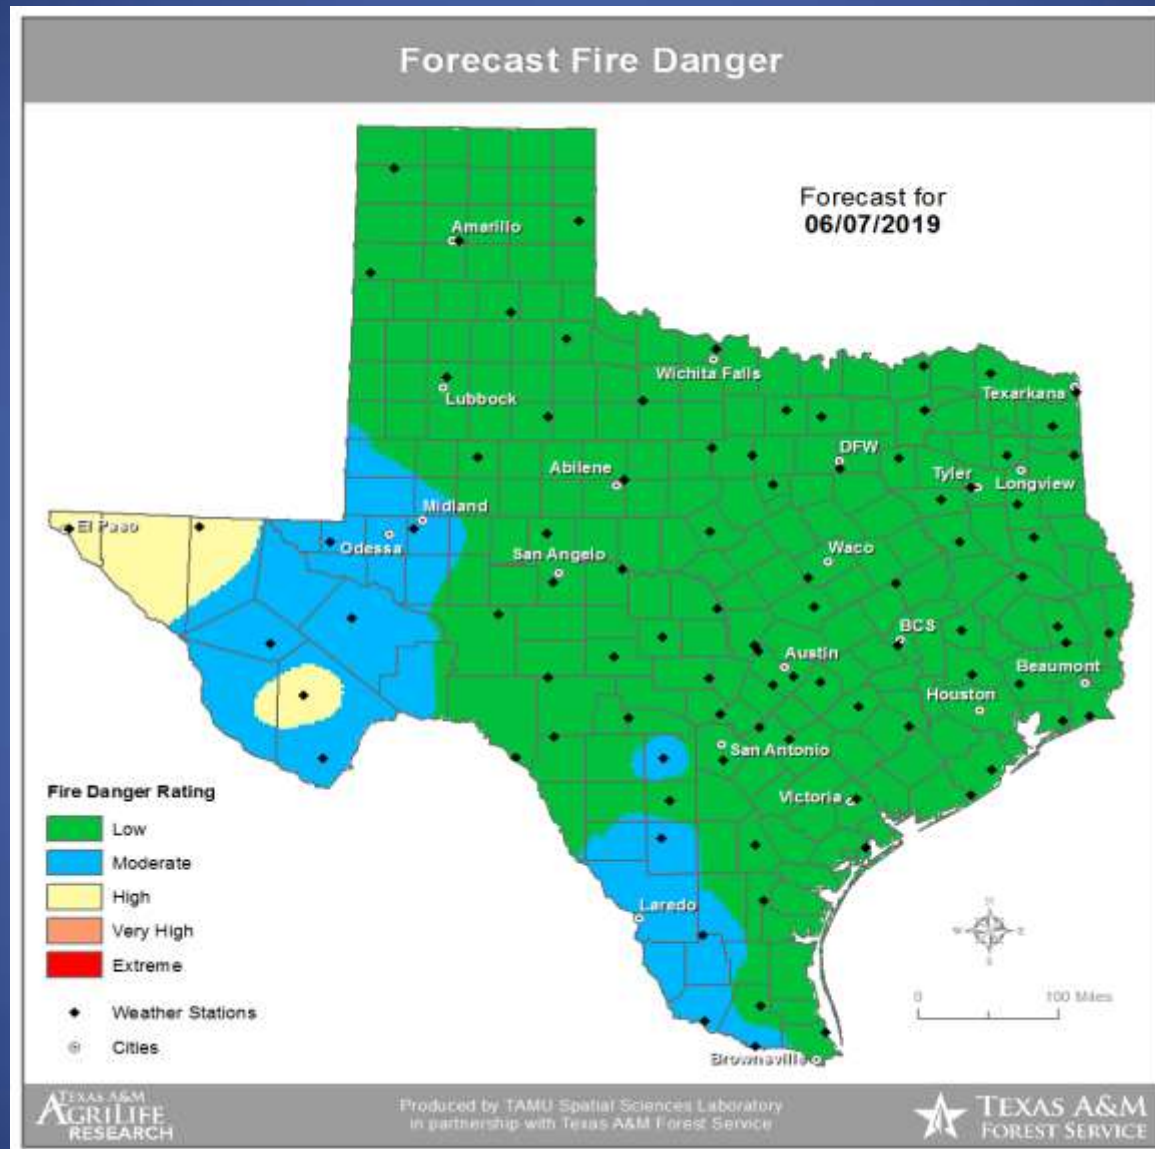

Today's main concern is the dangerous heat across the Rio Grande Valley this afternoon. High temperatures will reach the lower to upper 100s, but the heat index will range from 107 to 118 degrees Fahrenheit. As such, an Excessive Heat Warning is in effect for this afternoon. Remember to practice heat safety: stay hydrated, limit your exposure outside during the afternoon hours, and look out for the elderly, the young, and pets. Also, there is a slight chance we could see some thunderstorms this afternoon. Mariners can expect a light chop becoming a moderate chop on the bay today, with Gulf seas around 1 to 4 feet (0-60 nm).

Weather Warning/Advisories Issued

DATE	WARNING TYPE	LOCATION
06/06/19	Tornado Warning	Kleberg County
